L2C

A diagram of a double-stranded DNA molecule. It consists of two horizontal lines representing the sugar-phosphate backbones. The top strand is white, and the bottom strand is white. Between them, there is a central black segment. Below the black segment, there are two white rectangular boxes, one on the left and one on the right. An arrow points from the left box to the right, and another arrow points from the right box to the left, indicating a process of synthesis or movement towards the center.
